THE QD DIFFERENCE

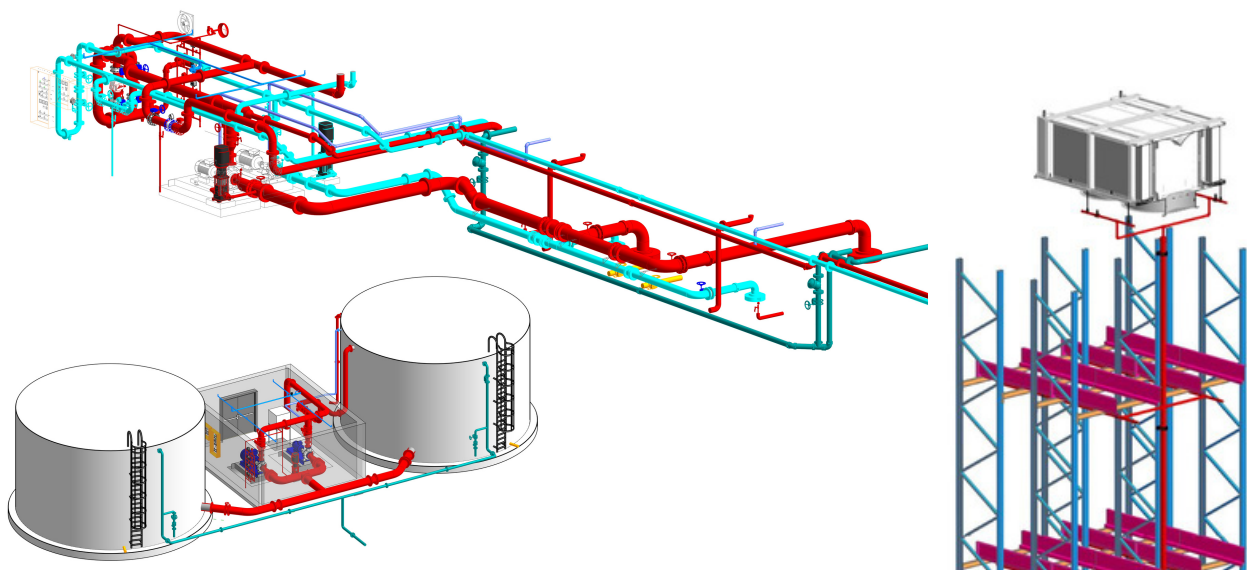

At QD Fire, we prioritise quality and service to ensure our competitive advantage within the fire protection industry, that is why our manufacturing division, IMS Pipe Fabrication, is the only pipe fabrication warehouse with coded welders in the Western Cape. Our two step quality control system ensure every pipe is perfect before being delivered to site.

At QD Fire, we know our service doesn't end at the end of the project, that's why we have a 24 hour service and maintenance team that takes care of all our client's fire protection installations after the project.

At QD Fire, to ensure our quality supersedes our competitors, we only install FM Approved or UL Listed fittings, tees, elbows, mechanical couplings and Fire Sprinkler Equipment.

At QD Fire, we pride ourselves in delivering the highest quality Fire Protection Installations with Service that is second to none.

Utilising the latest Revit technology, our in-house draughtsman are able to coordinate our workshop fire sprinkler drawings far more accurately eliminating time consuming coordination on site.
